

CHIRANTH GOWDA S

Bengaluru, India |  8660435979 |  chiranthgowdas13@gmail.com |  linkedin.com/in/chiranth-gowda-s

PROFESSIONAL SUMMARY

Computer Science Engineering student (CGPA: 9.2) with a strong foundation in Data Structures, Algorithms, and Full-Stack Development. Experienced in building scalable web applications and developing machine learning solutions. Passionate about innovation and problem-solving, with a keen interest in exploring Data Engineering, AI/ML, and Software Development to build and deploy impactful systems.

EDUCATION

B.E. in Computer Science Engineering 2023 – 2027

KS Institute of Technology (KSIT), Bengaluru

- **CGPA:** 9.2

Pre-University Course (PCMC)

Narayana PU College

- **Percentage:** 95%

TECHNICAL SKILLS

Programming:	Java, Python, C, C++, R
Web Development:	HTML, CSS, JavaScript, React
Databases:	MySQL, MongoDB
Tools & IDEs:	Git, VS Code, Eclipse, Spyder
Core Concepts:	Data Structures & Algorithms, OOP, DBMS, Operating Systems
AI / ML:	Machine Learning (Basics), Data Analysis
Soft Skills:	Leadership, Communication, Problem Solving, Critical Thinking, Marketing

EXPERIENCE

Machine Learning Developer Dec 2025 – Present

CampusHive | Bengaluru

- Developing machine learning models to enhance user engagement and platform intelligence.
- Applying classification and clustering techniques to extract data-driven insights.
- Researching and implementing modern ML approaches to improve overall system performance.

Software Developer Intern (Project-Based) Jun 2025 – Present

KSIT | Bengaluru

- Building web applications utilizing Java, HTML, and modern development tools.
- Debugging and optimizing application code to significantly improve efficiency.
- Collaborating with teams for comprehensive testing, code reviews, and successful deployment.

Affiliate Marketing Associate 2025

Perplexity AI | Bengaluru

- Managed digital campaigns and promotions, driving increased user engagement and brand awareness.
- Created targeted marketing content and executed effective outreach strategies.

PROJECTS

Event Sphere (Flagship Project)

Technologies: React, JavaScript, HTML/CSS, Flask, MongoDB

- Built a comprehensive full-stack event management platform tailored for college ecosystems.
- Implemented a QR-based ticketing system and role-based login for secure, streamlined access.
- Designed the UI/UX and independently managed backend integration with a MongoDB database.

CampusHive

Technologies: Machine Learning, Data Analysis

- Developing an ML-powered student ecosystem platform to deliver predictive insights and analyze user behavior patterns.

Crowd Density Tracker

- Engineered a real-time crowd monitoring system utilizing various data analysis techniques for efficient crowd management.

Online Banking System

- Developed a secure transaction system applying Database Management Systems (DBMS) and Object-Oriented Programming (OOP) concepts.

ACHIEVEMENTS & LEADERSHIP

- **6th Place:** Byte Battle Hackathon
- **Participant:** JSS Navothana Hackathon
- **Student Ambassador:** KSIT
- **Placement Volunteer:** KSIT

CERTIFICATIONS & WORKSHOPS

- Data Structures & Algorithms Certification
- Web Development Certification
- Machine Learning Workshop — KSIT
- Arduino Workshop — KSIT
